Trovare nuove modalità per appassionare i bambini al disegno può essere importante per incrementare le attività artistiche e di conseguenza le abilità grafiche e la motricità fine.

Ecco un modo divertente per giocare disegnando!

Preparate le tabelle guida e un dado.

Ad ogni lancio di dado

aggiungete il particolare corrispondente fino alla fine del disegno!

Potete scegliere che ogni disegnatore esegue gli stessi particolari

oppure che ognuno lanci il proprio dado.

Alla fine, in entrambi i casi,

potete confrontare i disegni realizzati.

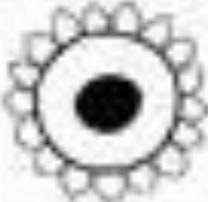

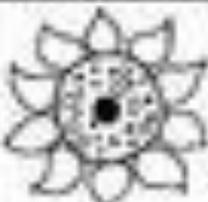

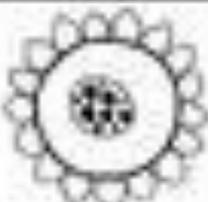

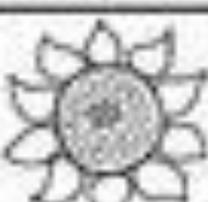

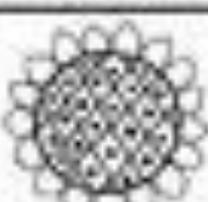

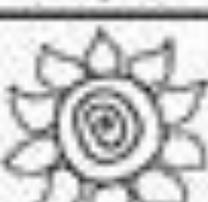

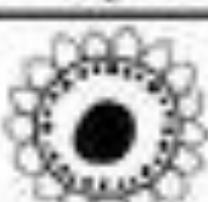

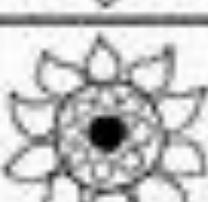

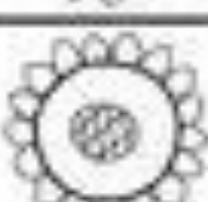

A questo punto divertitevi a colorare con le matite colorate!
